

PRODUCT SHEET: MOKI

COMFORT ZONE

Use for indoor or outdoor (use down to -5 °C).

DESCRIPTION

Warm and lightweight bootie for indoors and for the cooler days of spring and fall and even winter. Perfect for small chilly feet!

The fleece lining makes the MOKI a warm and cozy bootie. A thin layer of insulation, Powderfill™ traps in the heat and promotes a healthy evacuation of moisture. **Comfortable in temperatures to -5 °C.** Dress your child appropriately according to the weather.

The outside of the bootie is made of waterproof nylon. The non-slip sole is flexible and durable.

The MOKI bootie fits easily on baby's foot thanks to the elastic ankle band and easy access, through the wide opening which is closed by means of Velcro.

USE

The MOKI bootie can be used indoors as a warm bootie. It can also be used in the baby carrier in the stroller or in the car seat for the cooler days of autumn and spring. Combined with the use of a Sherpa envelope for the stroller, baby carrier or car seat, this bootie can also be used in winter. **Parents, be vigilant, your child may have a greater sensitivity to cold.**

The MOKI bootie is not designed to play in the water like a rain boot, it is made of waterproof fabric, but it is not watertight. To avoid premature wear and tear, we suggest that you limit its use on abrasive surfaces such as concrete or asphalt. Dress your child appropriately according to the weather.

TIPS

The MOKI bootie is designed to go outside. The fabrics are waterproof and windproof. However, it cannot be considered as watertight as rain boot.

The suggested temperature for our products is indicative. Different criteria vary the comfort zone: physical condition, humidity, food, fatigue, shelter, altitude, etc. Customize your Sherpa product according to the activity you plan to do and dress your baby appropriately depending on weather conditions.

SIZE

What size to choose?

Sizing guide Moki			
	Length	Canada	Europe
0-6	7,5 à 9,5 cm 3 à 3 ¾"	0 - 2	17 - 18
