

PRODUCT SHEET : DAKOTA

COMFORT ZONE

Use for indoor or outdoor (use down to -5 °C).

DESCRIPTION

Warm and lightweight booties for indoors and for the cooler days of spring, fall and even winter. Perfect for small chilly feet! The fleece lining makes the DAKOTA warm and cozy. A thin layer of insulation Powderfill™ traps in the heat and promotes a healthy evacuation of moisture. The outside of the DAKOTA bootie is made of printed cotton for a perfect urban look. The non-slip sole is flexible and durable. The suede reinforcement will provide more durability for those crawling feet. Holds well in baby's foot with the elastic ankle band and easy to put on thanks to the wide opening which closes with a velcro strap. **Comfortable for temperature going down to -5 °C. Parents, be vigilant, your child may have a greater sensitivity to cold.**

USE

The DAKOTA bootie can be used indoors as a warm slipper. It can also be used in the baby carrier, in the stroller or in the car seat for the cooler days of fall and spring. Combined with the use of a Sherpa envelope for the stroller, baby carrier or car seat, this bootie can also be used in winter. Dress your child appropriately according to the weather.

To avoid premature wear and tear, we suggest that you limit its use on abrasive surfaces such as concrete or asphalt.

TIPS

The DAKOTA bootie is designed to go outside on cooler days of spring or fall. The suggested temperature for our products is indicative. Different criteria vary the comfort zone: physical condition, humidity, food, fatigue, shelter, altitude, etc. Customize your Sherpa product according to the activity you plan to do.
